REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a method of forming an article and measuring the thickness of a polymer composition layer of the article by exposing the layer to electromagnetic radiation, the step of copolymerizing fluorophores with the polymer composition. Jones (US Patent 6,682,810) does not teach that the fluorophores are copolymerized, but teaches that they are mixed with or added to the composition of the coating layer, which is typically wax. Jones thereby teaches away from copolymerization of the fluorophores with a polymer composition.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne E. McDowell whose telephone number is (571) 272-1205. The examiner can normally be reached on M, W, Th 6:30-4.
